

Photo guidelines for EYOF Skopje 2025

To complete your accreditation, you must submit a photograph that meets the specifications outlined below. Failure to provide a compliant photo will delay your application. The photo should be:

- A clear headshot of yourself.
- In color (not black and white), with a plain white, light grey, or cream background.
- Sharp and focused, without any red-eye effect or shadows.
- Free from reflections or glare if you are wearing glasses.
- At least 133x100 pixels in size, with an ideal resolution of 531x398 pixels.
- The photo should always keep a ratio of 4:3. If not, it will not be imported.
- Saved in JPG or PNG format, and the file size should not exceed 500KB.

In the photo, you should:

- Face the camera directly, showing your full face with your eyes open.
- Have no obstructions covering your face.
- Avoid wearing sunglasses or tinted glasses. If you normally wear glasses, your eyes must be clearly visible.
- Not wear any head coverings or hats. If you wear a head covering for religious reasons, ensure that your face is clearly visible.
